

Tizen::Ui::Scenes::  
IFormFactory

```
classDiagram
    class Tizen_Ui_Scenes_IFormFactory {
    }
    class HideltFormFactory {
    }
    HideltFormFactory --|> Tizen_Ui_Scenes_IFormFactory
```

The diagram illustrates an inheritance relationship. At the top is the base class 'Tizen::Ui::Scenes::IFormFactory', represented by a white box with a black border and two empty internal compartments. Below it is the derived class 'HideltFormFactory', represented by a grey box with a black border and three compartments. The top compartment of the derived class contains the class name. The bottom compartment lists three public methods: '+ HideltFormFactory()', '+ ~HideltFormFactory()', and '+ CreateFormN()'. A blue arrow with an open triangular head points from the derived class to the base class, indicating inheritance.

HideltFormFactory

+ HideltFormFactory()  
+ ~HideltFormFactory()  
+ CreateFormN()
